**Help**

Portal for distance learning and advanced training – is a unique system that allows listeners to gain knowledge simultaneously performing their referral tasks.

System has user-friendly interface and is very easy in use. System can be adjusted to any educational process. Access to portal can be realized through PC or tablet.

# SYSTEM MODULES

## PORTAL FOR DISTANCE LEARNING AND ADVANCED TRAINING

# SYSTEM MODULES

## MAIN MODULE OF SYSTEM FOR DISTANCE LEARNING

### LEARNING MATERIAL

Creation of learning topics with multimedia materials (audio and video files, presentations) and intermediate tests

### LEARNING PROGRAMS

Uniting learning materials into programs with introductory and final tests

### UNITIES AND GROUPS

Unite listeners into unities, divide into groups and control registration in a program

### LISTENERS

Managing system users with a listener role

### STATISTICS

Display of statistic information about results of learning

### NEWS FEED

Display of the latest actions and changes to the system

### SETTINGS

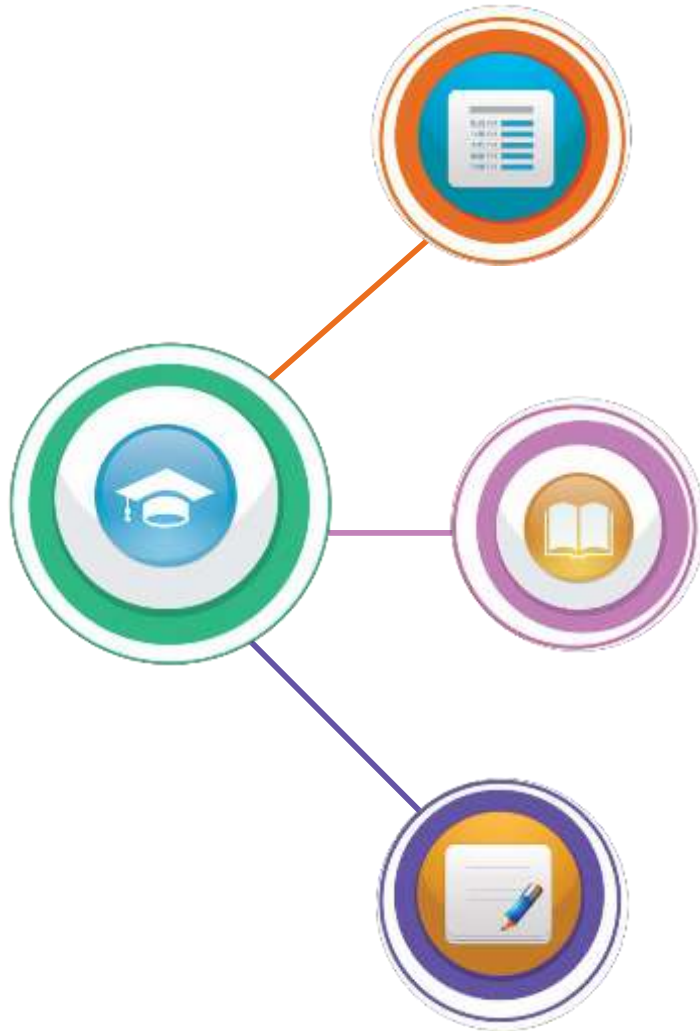

Function to change passing score, control letters sent by system etc.

# SYSTEM MODULES

## INFORMATION MODULES

---

### **SCHEDULE**

Responsible for informing about current schedule of learning program, as well as place and time of exams

### **LIBRARY**

Electronic library of educational institution in structured form with multilevel structure and intellectual material search system

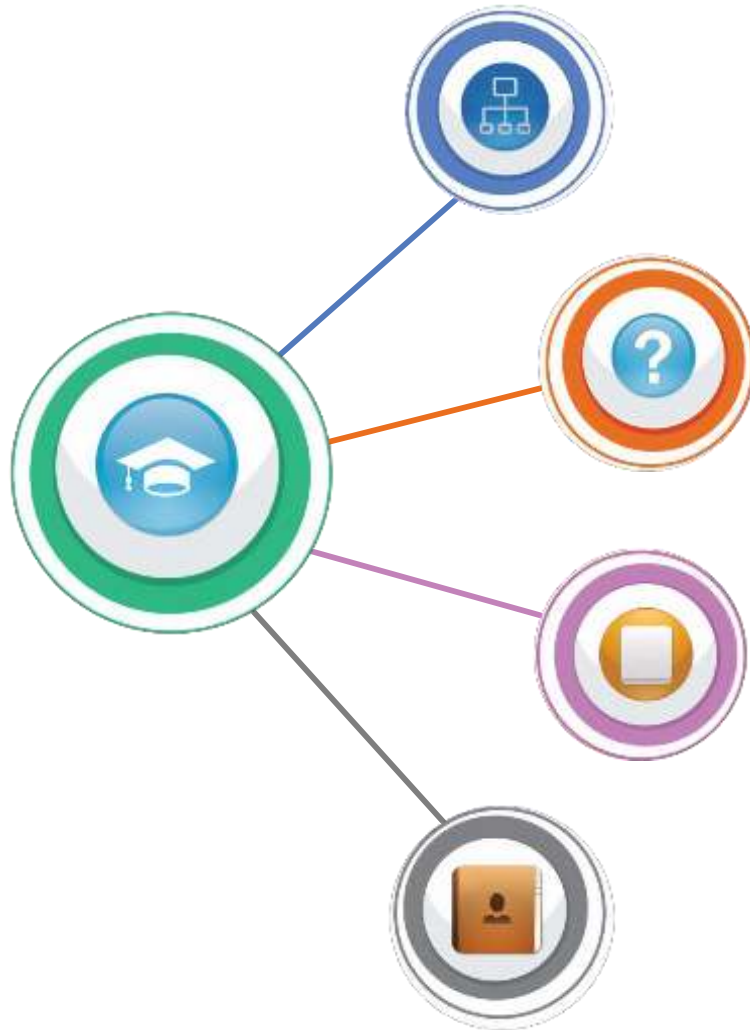

### **KNOWLEDGE DATABASE**

Structured storage of users' files for further use in learning process

# SYSTEM MODULES

## REFERENCE MODULES

---

### STRUCTURE

Displays a structure of educational institution, administration, faculty, departments and employees

### HELP

Help information that describes functionality of the system, work with its modules and divisions

### REGULATORY DOCUMENTS

Documents that regulate distance learning

### PROFESSORS

Information and contact details about teaching staff

# SYSTEM MODULES

## COMMUNICATION MODULES

---

### FORUM

Used for providing collective process of communication regarding learning materials or housekeeping issues

### MESSAGES

Allows to exchange private messages, use instruments for text formatting and files attaching

### WEBINARS

Allows to hold online lectures and meeting for unlimited number of people regardless of their location.

# WEBINARS

## ONE OF THE MOST IMPORTANT MODULES OF THE SYSTEM IS TECHNOLOGY OF WEBINARS

Webinar – is online format of holding meetings for unlimited number of people regardless of their location. It is video communication in real time mode that requires from listeners only Internet connection.

Integrated webinar module is an important competitive position of Scientia expanding functionality and spheres of system use. In webinar form you can hold any events: lectures, seminars, trainings, conferences, business meetings etc.

Use of webinars for educational purposes allows to hold online lectures with professors from abroad; take courses of advanced training simultaneously performing referral task, continue studying in case of reluctant school closure.

Beyond education sector webinars can be used for organization of business meetings, negotiations, conferences. With a help of webinar module, you can quickly and easily organize meeting between several companies.

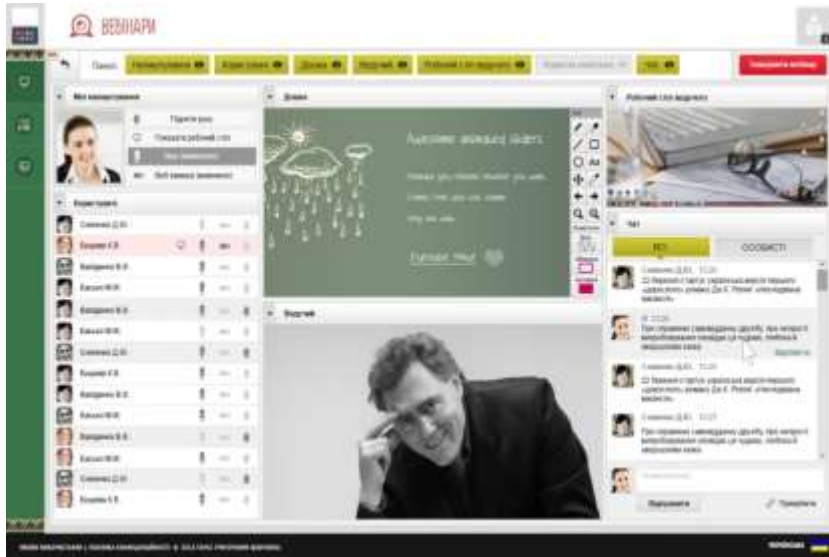

## PECULIARITIES OF WEBINAR MODULE IN SCIENTIA:

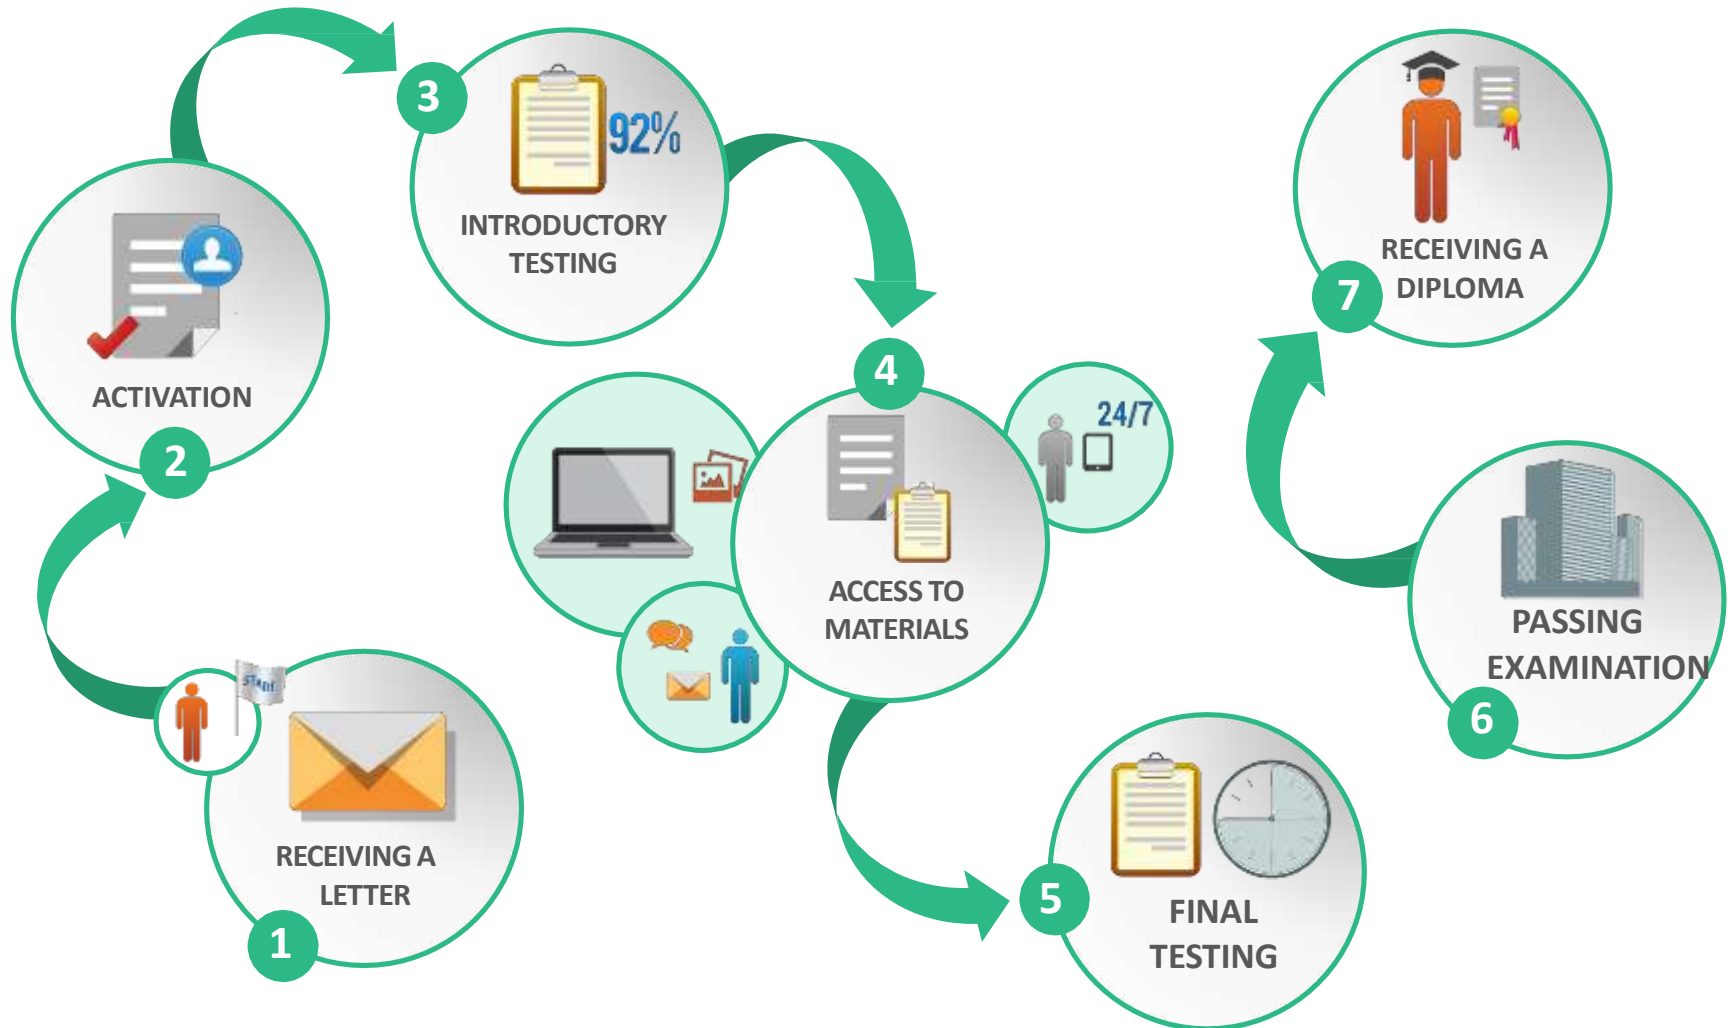

- written in HTML5
- has interactive whiteboard for display of PDF, PPT files, images etc.
- allows to post files that can be downloaded by participants
- allows to broadcast anyone from the participants
- grants participants access to chat

- saves webinars for further use
- can be used from any Android device with a function of video streaming
- allows individual adaptation of interface
- can be easily integrated with other systems

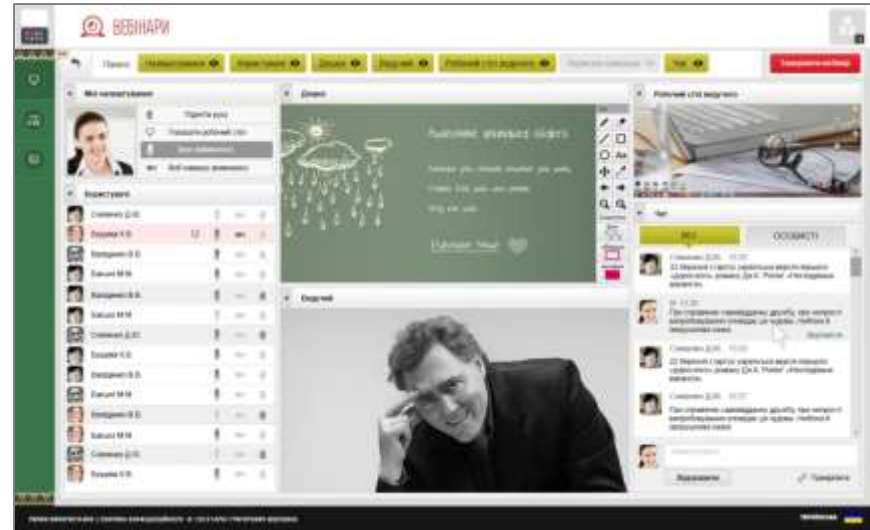

# ПРОЦЕС НАВЧАННЯ

## ПРИКЛАД ПРОХОДЖЕННЯ НАВЧАЛЬНИХ ПРОГРАМ

## ОСОБЛИВОСТІ МОДУЛЯ ВЕБІНАРІВ У SCIENTIA:

- written in HTML5;
- has interactive whiteboard for display of PDF, PPT files, images etc.;
- allows to post files that can be downloaded by participants;
- allows to broadcast anyone from the participants;
- grants participants access to chat;
- saves webinars for further use;
- can be used from any Android device with a function of video streaming;
- allows individual adaptation of interface;
- can be easily integrated with other systems.

# WAYS OF USING THE PORTAL

## EDUCATIONAL INSTITUTIONS

### **DISTANCE HIGHER EDUCATION**

For today such form of education is the most optimized that allows to get diploma with major in your favorite subject with a flexible schedule of studying.

Enrolment can be performed at any time not to mention a considerable cash savings

### **DISTANCE PREPARATION FOR EIT**

Thanks to the system you can systematically gain necessary information and tests as means of checking your obtained knowledge will be a perfect training before passing EIT.

### **COURSE FOR GIFTED CHILDREN**

Extra-curricular activities in various subjects and disciplines in a form of distance learning will help your child start digging in favorite topics.

Also you can choose on you own convenient schedule for covering the material.

# WAYS OF USING THE PORTAL

## CORPORATE SECTOR

### TEACHING NEW EMPLOYEES

Systems for distance learning allow to pass adaptation period in a new team faster and more effectively, they can also help understand faster employee's duties, get to know organization's structure and its corporate culture.

### ADVANCED TRAINING, RETRAINING

System for distance learning allows to increase qualification of organization's employees, at the same time saving employees' time for accomplishments primary tasks and company's money.

### CERTIFICATION OF STAFF

Defining corporate qualification of employees is aimed at improving the quality of staff, primarily specialists and senior officers on different levels. System allows to define level of employees' labor potential usage without time and resource expenditures.

# WAYS OF USING THE PORTAL

## PROFILE ONLINE COURSES

Thanks to system for distance learning self-development becomes much cheaper and affordable – you can learn a new language take a theoretic online course at driving school or gain knowledge in the sphere that is interesting for you without wasting time and money

## TRAINING COMPANIES

Day by day more and more people require additional knowledge for both career growth and self-development. Taking into account working schedule, you can't always find courses that would fully correspond to your desires in terms of time and information content. Portal for distance learning allows to create individual educational programs, taking into account listeners' peculiarities and needs, and provide maximum convenience of learning materials.

# ADVANTAGES OF USING THE PORTAL

## MAJOR ADVANTAGES OF INTEGRATED SYSTEM FOR DISTANCE LEARNING ARE:

---

- Ability to cover a vast majority of students;
- Creation of lectures using state-of-the-art information technologies with multimedia materials;
- Increase of learning efficiency;
- Formation of educational programs and guarantee that every student will cover necessary education material;

- System of tests and exams;
- Statistics of material covering by every student;
- Creation of conditions where every student is given a chance to get quality education.
